Students gain practical understanding via applying the scientific method in the Practical Zoology book. Students at the Zoology program's undergraduate and postgraduate levels will find this lab manual very helpful. This laboratory handbook offers instances of zoological experiments as well as several processes, techniques, and methods about the study of water. There was an examination of the ecology of the water. The development of a number of different species is covered in this discussion, Students are taught about the development of embryos as well as the qualitative aspects of biochemistry research. Students who are pursuing a degree in animal behavior will find that reading this book is of tremendous use to them.

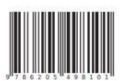

Dr. M.Moorthi works as an Assistant Professor of Zoology and Wildlife Biology, A.V.C. College (Autonomous), Mayiladuthurai, Tamil Nadu, India, Dr. M. Govindarajian serves as an Assistant Professor of Zoology, Government College for Women (A), Kumbakonam, Tamil Nadu, India.
