CRITERION VII – INSTITUTIONAL VALUES AND BEST PRACTICES

7.2.1 BEST PRACTICES

BEST PRACTICE – I - Knowledge Building through Expert Interventions

1. Title of the Practice

Knowledge Building through Expert Interventions

In this digital era, epistemology building is an important component that provides for a holistic formation of a student, both internally and externally. The college enjoys the privilege of renowned experts from both within the country and abroad paying a visit to it. Having heard of the college's distinctiveness as a unit run by women, for women & of women', they get attracted to visiting the college. The college has created a platform for these visiting skilled minds to interact with the staff, researchers and students through formal and informal structures that enable learning on a sound basis.

In addition to this, the college motivates students and staff to participate in invited lectures, seminars and conferences conducted in other colleges at home and abroad. As our famous Tamil poet Bharathi sang "Sendriduveer ettuthikkum, kalaichelvangal yavum konarnthingu serpeer" (English Translation: Go in all the eight directions and bring home all the knowledge available in all the other parts of the world) Hence, the institution has acknowledged "Knowledge Building through Expert Interventions", as one of its best practices.

2. Objectives of the Practice

- Exposing students and scholars to lectures/speeches of subject experts
- Emulating experts as modular role models
- Garnishing knowledge through face-to-face interaction
- Upgrading and updating knowledge through acquisition of latest information
- Providing a cross section of knowledge from Regional, National/ International perspectives
- Paving the way for more collaborative work, MOUs, Internships and Joint publications

3. The Context

To transfer the contents of the program into the curriculum, a pack of knowledge building exercises, mainly through Seminars/ Conferences/ Invited Lectures/ Workshops, National and International has taken place periodically in the campus, where the students are provided with a plethora of opportunities to interact with and hold dialogues with the experts, as an extended and enriched platform to learn and re-learn.

As a holistic learning process, cultural exchanges, knowledge transfer, skill impartation, exposure to novel ideas and ideologies, and the like are enabled for the students and faculty making them live in within reach of a paradigm of ever-evolving frontiers of knowledge. An extended outcome of the learning process is the launch of many joint research projects, scores of collaborations on academic and extension phases, joint publications, and MoUs.

4. The Practice

Under this practice, the Departments are successfully organizing and conducting Regional/ National/ International Seminars, Conferences, Workshops, and Invited Lectures on various themes and topics from their respective disciplines, enhancing cross/ multi/interdisciplinary research culture. This practice has paved the way for signing MOUs and enabling academic exchange of staff and students and joint publications.

5. Evidence of Success:

- Engaged the scholars and students actively in keeping abreast of knowledge development.
- The faculty members have actively participated in programs in national level and international level
- Research collaborations, Joint publications, Academic Projects, Internships and industrial Linkages have been initiated

6. Problems Encountered and Resources Required.

Inadequate Travelling and daily allowances are given to resource persons. Other resources required also need a prop-up or up-scaling.

The screenshot shows a Google Meet interface during a webinar. The main content area displays a slide with the title "Classification of Topological indices" in a red header. The slide text reads: "❖ There are some major classes of topological indices such as distance based topological indices, degree based topological indices and counting related polynomials and indices of graphs. ❖ Among these classes degree based topological indices are of great importance and play a vital role in chemical graph theory and particularly in chemistry." The slide footer includes "Recent trends in Graph Theory", "M.S.SRINIVASAN", and "13.03.2021". The meeting controls at the bottom show "Association Meeting Webinar", a microphone icon, a "Raise hand" button, "Turn on captions", and "srinivasan ms is presenting". The participant grid on the right shows several attendees, including Mohanapriya.A, s thenmozhi, Dr. R. Gowri Assi..., srinivasan ms, soundharanayak..., Sneha Arasu, S RAJKUMARI, Baby Shalini, and Mullai Baskaran. The system tray at the bottom of the screen shows the time as 16:45 on 13-03-2021.

ABOUT THE THE DEPARTMENT OF PHYSICS, Govt. College for women (Autonomous), Kumbakonam:

Department of Physics came into being in 1969 to offer undergraduate education in Physics. Initially, it was affiliated to the University of Madras. After the bifurcation of the University of Madras, it was then affiliated to Bharathidasan University, Tiruchirappalli in 1982. M.Sc. Program was started in 2002 and the Department of Physics was given special permission to conduct full time Ph.D. Program by virtue of sponsored research projects. The Centre for Nonlinear Science (CeNSc) which was annexed with the Department has built up a world class reputation with linkages with several leading Institutions/Universities in India & Abroad.

CeNSc has already completed 7 major Research projects funded by DST, UGC, CSIR, DAE-NBHM, etc... The infrastructural facilities available at CeNSc are as good as one comes across leading Research Institutes like The Institute of Mathematical Sciences (IMSc), Chennai, etc., The Department received Rs. 8 Lakhs for PG Assistance from University Grants Commission (UGC) in the XI plan. The Department was recently granted permission to conduct full time/ part time M.Phil. program. The primary focus of the Department is to offer quality education to underprivileged sections of the society.

ABOUT THE THE DEPARTMENT OF PHYSICS, Govt. Arts College (Autonomous), Kumbakonam:

Government Arts College (Autonomous) which is also known as Cambridge of South India was established in the year 1854. Under graduate program in Physics was started in the year 1945. PG course in Physics was introduced in the year 1984. Department was

elevated as a Research Department with the introduction of M. Phil and Ph.D in the year 2001. Department has been releasing a Science Magazine by name "SCIENCE EXPRESS" since 2015. All the staff members of the department are doctorates and are engaged in active research in thrust areas like Crystal growth, Vibrational Spectroscopy, Ultrasonics, Biomaterials etc... Our department had the privilege of Sir C.V Raman addressing the inaugural function of Physics association in March 1944. Focus of the department is to make students knowledgeable in Physics which will inspire them to achieve high goals in their life.
