"The collapse of education is the collapse of a nation"

▶ Destroying any nation does not require the use of atomic bombs or the use of long range missiles. *It only requires lowering the quality of education and allowing cheating in the examinations by the students.*

- *Patients die at the hands of such doctors.**
- *Buildings collapse at the hands of such engineers.**
- *Money is lost in the hands of such economists & accountants.**
- *Humanity dies at the hands of such religious scholars.**
- *Justice is lost at the hands of such judges**
